

Lemon Drop Mangosteen

Scientific Name: *Garcinia intermedia*

Origin: Exotic, Native to southern Mexico and Central America.

The seeds germinate easily and the tree is precocious, flowering and fruiting in 2-3 years. It can be grown and will fruit in a large pot. The tree is very adaptable, growing well in different soils and environments from sea level to 4,000 feet elevation. It grows well in full sun or shade, but fruits better in full sun. Tolerant in a wide range of soils.
